Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Specification

The disclosure is objected to because of the following informalities:

1. The specification lacks a paper copy of the sequence listing. It is noted that Applicant has requested that the sequence listing from parent application US 09/302,629 be included in the instant application. While this is acceptable with regard to a transfer of the Computer Readable Format (CRF) of the sequence listing, it is improper to transfer the paper copy of the sequence listing from one application to another. Applicant is required to submit a paper copy of the sequence listing referring to the instant application, as well as a statement indicating the paper copy and CRF are identical and contain no new matter in accordance with 37 CFR § 1.821-1.825.

2. The specification contains sequences that are not identified by SEQ ID NOS. Specifically, Figure 4, page 31 (line 8), page 50 (line 19), page 57 (line 24-25), page 65-69 (throughout) and page 89 contain sequences that require identification by SEQ ID NOS. Applicant is required to properly identify each of these sequences with its proper identification number. As it regards Figure 4, it would be acceptable to identify the sequences in the Brief Description of the Drawings, rather than submit a new figure containing the identified sequences.

Art Unit: 1636

3. The Drawings contain figure panels that are not described in the Brief Descriptions of the Drawings. Specifically, figure 6 does not indicate the presence of panel A, and figure 18 does not indicate the presence of panels A and B. It would be remedial for Applicant to insert "A" or "B" in front of the parts of the description that correspond to the panels. Applicant is reminded that no new matter can be entered into the specification when making this amendment.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Lambertson whose telephone number is (571) 272-0771. The examiner can normally be reached on 6:30am to 4pm, Mon.-Fri., first Friday off.
